

Group Playtime at The Inn at Jolly Pond Permission Form

I request that my dog(s) get to interact in a small group of 8-12 dogs during outdoor potty and play times. I understand that dogs may be grouped based on size, temperament, and energy level. Depending on the number of dogs on a certain day, small and large dogs may be put out in a group together. I agree for the kennel staff to use their judgement on placing my dog in a group and to adjust if necessary. I acknowledge that my dog(s) may not get along well with others, or may need a time out to calm down during play time. The kennel staff will inform me of any major behavioral issues during these play times or if my dog is not allowed to be included during group play times. I understand that dogs must be spayed or neutered above the age of 6 months in order to be eligible for group play. (Permissions may be given by a Doctor for ages over 6 months, please ask in advance.) The kennel staff will always be present during group play time and will do their very best to monitor dogs closely and will remove any dogs acting too roughly or displaying aggressive behaviors. However, I do understand that there is a risk of injury during group play, including: minor scrapes, lameness, wounds incurred from fighting, or death. I will not hold Jolly Pond Veterinary Hospital or its employees responsible for any injury that may occur while being monitored during group play time.

Check all that apply:

- Yes, I want my dog(s) to be included during group play.
- I do not want my dog(s) to be included in group play.
- I wish for my dog(s) to only be included in a group of dogs their own size.
- You can use photos or videos of my dog(s) at play for Facebook or other websites.

Check one option, Please:

- Notify me or my emergency contact for any injury that may occur, even if minor.
- Only notify me or my emergency contact if a major injury occurs that may require medication or surgery.

If you have multiple dogs and only want a certain dog or dogs to be included, please note here: _____
